ZONAR MyView APP INFORMATION
NLSD122 is excited to partner with LW210 to introduce the Zonar MyView app. The Zonar MyView app will be available for students who ride LW210 transportation. LW843 is not participating at this time, as implementation decisions are made by the transportation providers.

The MyView app provides families with real-time, GPS-based information about their child's bus location. Families can create custom notification zones to receive alerts when the bus is nearby, as well as automatic notifications when the bus arrives at or departs from school.

IMPLEMENTATION DATE: MONDAY, MARCH 16, 2026
We encourage families to download the app before that date to access route information and set up notification zones. When setting up the app, please have your:
- Child's bus number (available in PowerSchool)
- Child's student ID number (available in PowerSchool)

HELPFUL HINTS
- Use of the app is completely optional.
- GPS route information will continue to display even if a different bus is driving the route. If changes cannot be updated, a message will be sent through the app.
- You may create custom zones around your bus stop or daycare to receive alerts when the bus enters that area.
- If using daycare as a custom zone, enter address of the daycare, not the name of the daycare.
- Do not create zones at the school. The app automatically sends notifications when the bus arrives (AM) and departs (PM).
- Notifications are based on the bus, not individual student attendance. You may receive alerts even if your child is not riding that day.

Zonar has provided a flyer, video, and Parent User Guide (included below) to help families with setup and navigation. After setting up the app, bus information should be visible the following day.

QUESTIONS?
Please email myviewquestions122@lw210.org for support.

We appreciate your patience
as we learn and adjust to this new GPS technology together!

ZONAR MyView™

Your School Access Code:

LIN10234
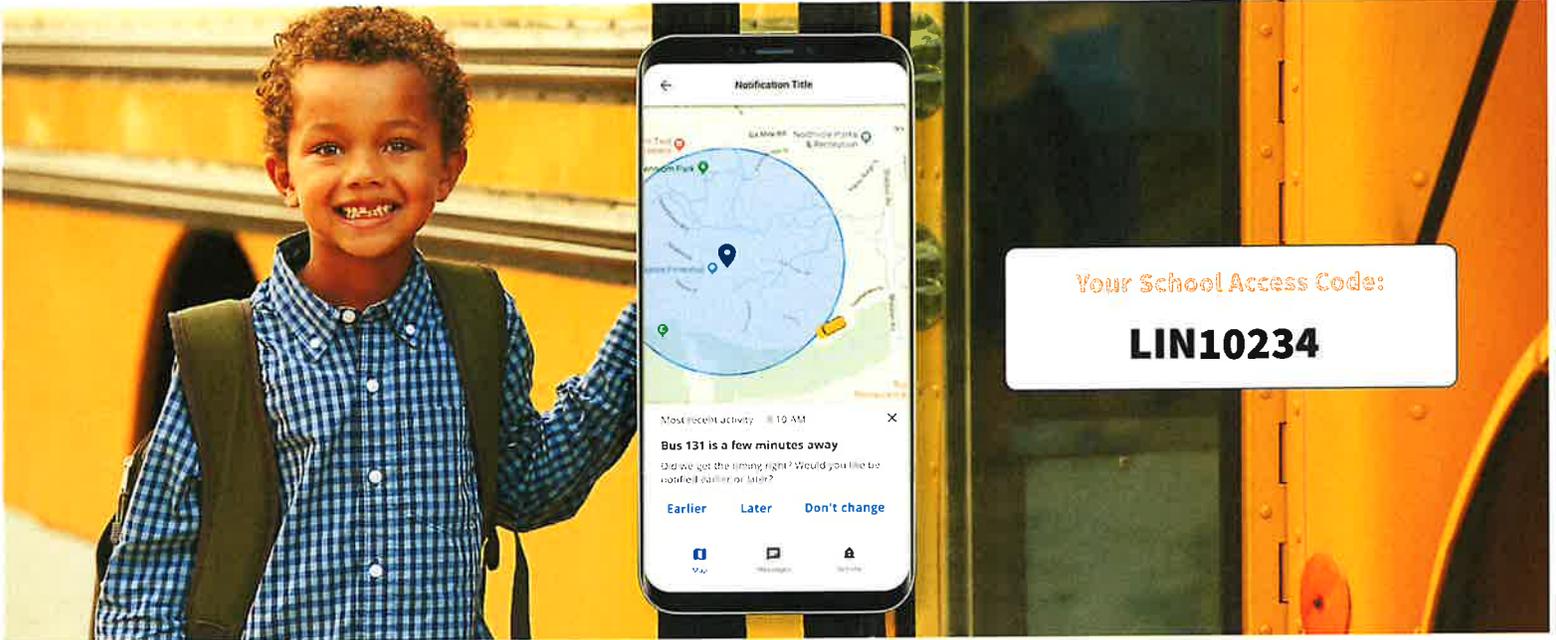

Know your child got on the bus safely.

Lighten your daily load.

Raising children is a tough job. This easy-to-use mobile app allows you to check on the school bus whenever you want.

Set up Zonar MyView:

1. Download the Zonar MyView app from the App Store or Google Play.
2. Enter the above School Access Code.
3. In the search field, enter the bus or route number you want to follow.

Complete this step for all the buses your students ride throughout the week.

4. Enter your child's unique student ID.
5. Create alert zones around drop-off and pick-up points.

When your child's bus enters an alert zone, you will receive notification by email.

Trust that your information is secure.

Security is priority one, especially where student information is concerned. All parent information is locked down and password protected within the app to prevent unauthorized people from opening the app and viewing the child's bus information.

Key features

- View a real-time, map-based bus locator
- Guarantee parent and student information privacy
- Create custom zones for each stop and facility
- Available on smartphones and tablets

ZONAR

If you have questions about setup and support, email
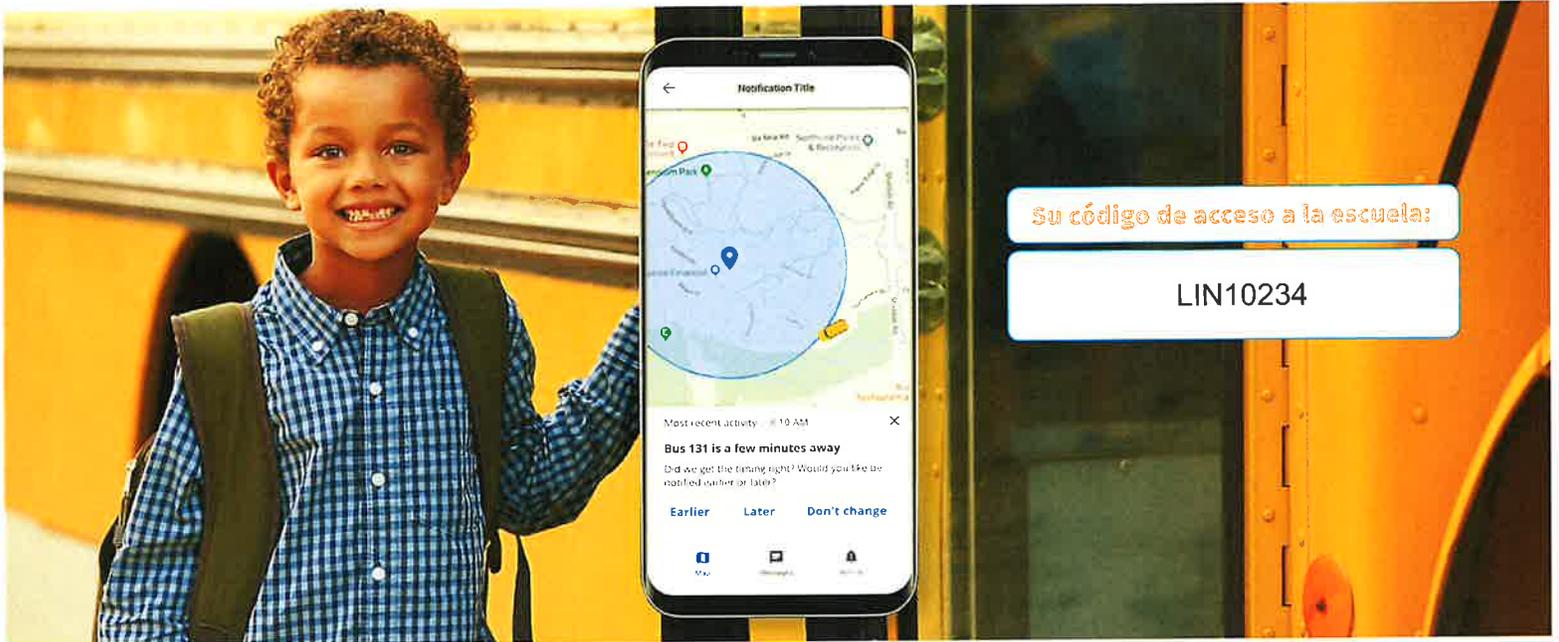

ZONAR MyView™

Le da tranquilidad.

Alivie su carga diaria.

Criar niños no es fácil. Esta aplicación móvil sencilla le permite verificar la ubicación del autobús escolar cuando quiera.

Configuración de Zonar MyView:

1. Descargue la aplicación Zonar MyView desde App Store o Google Play.
2. Ingrese el código de acceso de la escuela que figura arriba.
3. En el campo de búsqueda, ingrese el número de autobús o de ruta que desee seguir. Complete este paso para todos los autobuses que sus estudiantes utilizan durante la semana.
4. Ingrese la identificación única de estudiante de su hijo.
5. Cree zonas de alerta alrededor de los puntos donde su hijo se sube y baja del autobús.

Cuando el autobús ingresa en una zona de alerta, usted recibirá una notificación por correo electrónico.

Confíe en que su información está resguardada.

La seguridad es prioridad, especialmente cuando se trata de la información de un estudiante. En la aplicación, toda la información de los padres está bloqueada y protegida con contraseña para evitar que personas no autorizadas ingresen a la aplicación y vean la información del autobús del niño.

Características importantes

- Acceso al localizador del autobús basado en mapas en tiempo real
- Garantía de confidencialidad en la información del estudiante y de los padres
- Creación de zonas personalizadas para cada parada y ubicación
- Disponible en teléfonos inteligentes y tabletas

2. Tap **Install** or **GET**.
3. Tap on the app icon to open Zonar MyView.

Compatibility:

Android	Lollipo p OS or greater
iOS	iOS 12.0 or greater
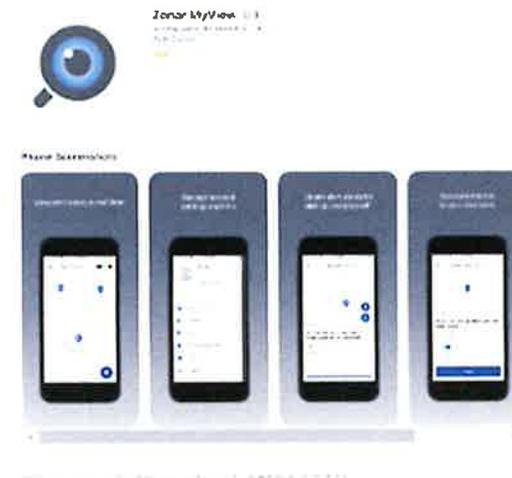

How to set up an account

1. Tap the application on your device to open it

2. Tap one of the sign up/sign in methods:
   - Sign in using a Google account
   - Sign in using an Apple account
   - Create a new account using an email address:
     - Enter your full name and email address.
     - Enter a password used to access the MyView app.
     - Select the method you want to be notified about bus updates (either push notifications through the app or via email).
     - Tap **Register.**

MyView

Welcome!

Zonar MyView is the best way to keep you notified of when your students are getting to school, and getting home. After you setup your account, you will receive notifications when their buses leave school, and arrive at designated locations.

How to set up an account

3. Enter the access code provided by your school.

4. Tap **Submit**.

5. In the search field, enter the bus number you want to follow.

6. Select the number from the list.

7. Tap **Next**.
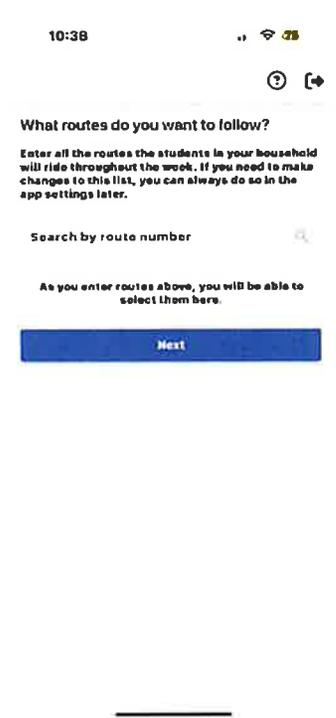

How to set up an account

8. Enter your student's information:
- Student ID Number (as provided by your school)
  - Full first name
  - Initial of last name

9. Tap **Next**

10. Confirm your student's information. If the information is incorrect, tap **Try Again**.

11. Tap **Add another student** to follow another student or tap **Done** to continue.

How to set up an account

12. After you've entered your student information, create at least one Alert Zone to begin receiving notifications of the selected buses. Tap **Create your first Alert Zone** to continue.
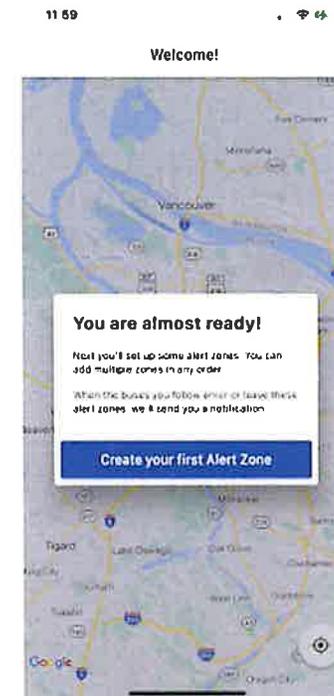

How to set up an account

13. Enter an address in the search field or drag the map around. Tap the map to drop a pin at the center of the Zone.

14. Name the Alert Zone.
Tap **Next**.

15. Select all buses that go through the Alert Zone from the list of routes.
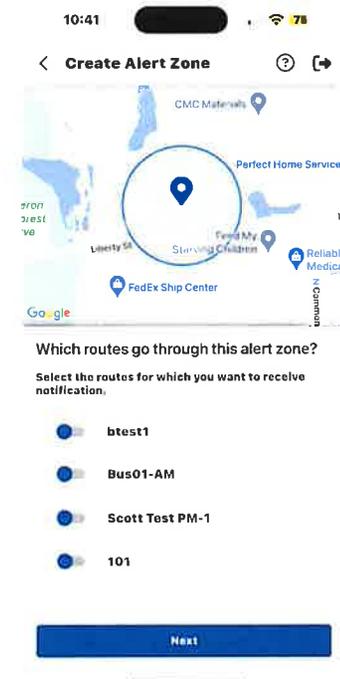

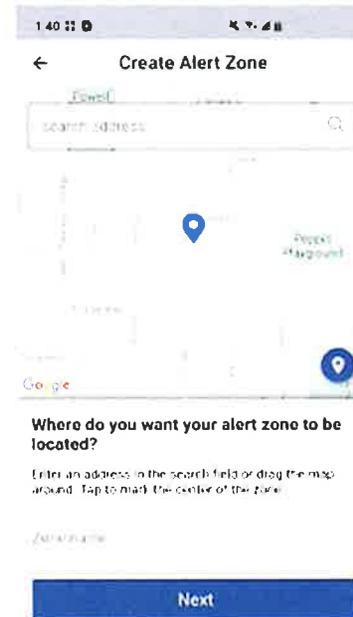

How to set up an account

16. Tap **Next**.

17. Use the slider to adjust the radius of the Alert Zone.

18. Select the days of the week and time (either TO or FROM school) that you want to be notified.

19. Tap **Finish** to set the Alert Zone.
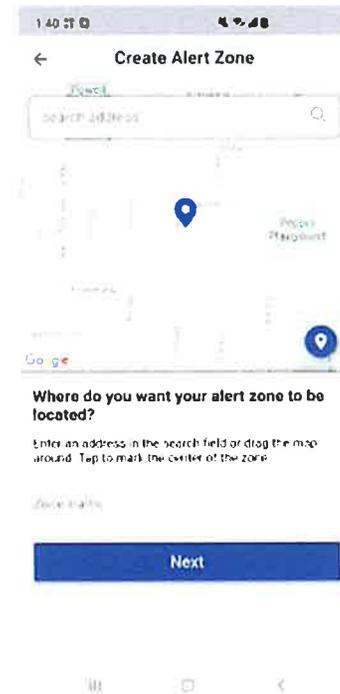

How to create an Alert Zone notification

1. Tap the main menu

How to create an Alert Zone notification

2.Tap **Create Alert Zones** or **Alert Zones**.

3. If you already have an Alert Zone listed and want to add another Alert Zone, tap + sign in the lower right-hand corner.

4. Enter an address in the search field or drag the map around. Tap the map to drop a pin at the center of the Zone.

How to create an Alert Zone notification

5. Name the Alert Zone.
Tap **Next**.

6. Select all buses that go through the Alert Zone from the list of buses.

How to create an Alert Zone notification

7. Tap **Next**.

8. Use the slider to adjust the radius of the Alert Zone.

9. Select the days of the week and time (either TO or FROM school) that you want to b

10. Tap **Finish** to set the Alert Zone.

School Notifications

During the daily scheduled alert period, bus activity is viewable on the Alert Zone map. Alert Zones are indicated with a pin and the zone radius. Vehicles are indicated by a bus graphic.

Alerts and notifications from the school are pushed to your device and are indicated by a red number on the message or alert icons. You can access those alerts and messages by tapping on them.
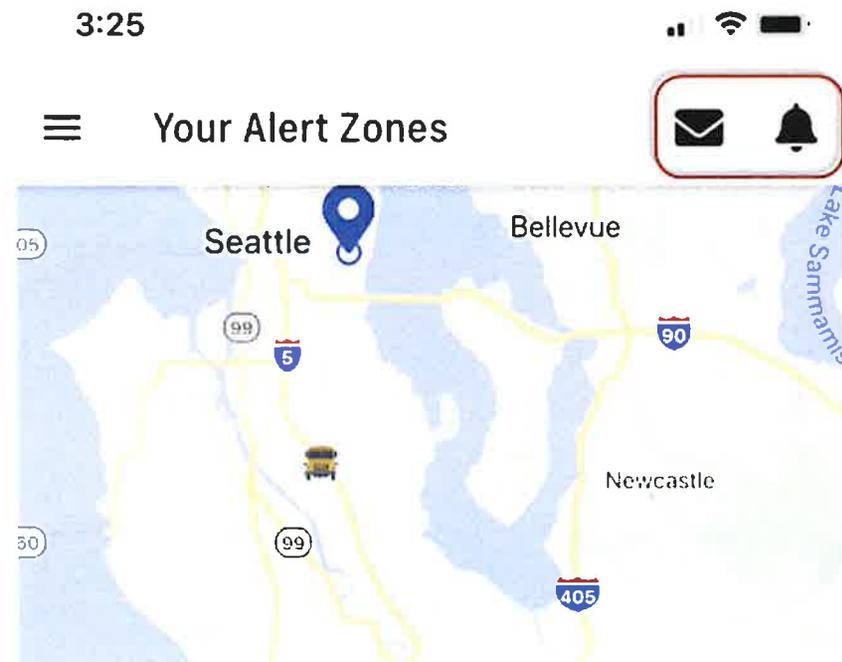

School Notifications

Tap **School Notifications** to confirm or change the Times at which the alerts are active — either going to school (Arrival) or returning from school (Departure). Slide the toggle buttons to activate those notifications for the school.
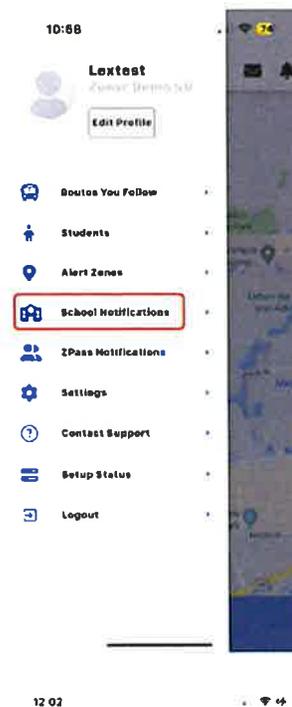

Setup Status

Completion of all sections is required to provide tracking information to you. If any of the sections have not been completed, a Setup Status screen appears at login. Those sections with checkmarks have been completed. Tap the buttons without checkmarks to enter setup information.
