### STUDY GUIDE: WORDS, WORDS, WORDS!

The English language consists of an unfathomable quantity of words, many of them that we don't use on an everyday basis. However, some vocabulary words are essential for any literate student to know, particularly if they're college or business-bound. Learning the words below will help you in your reading comprehension, on your college prep tests, in your term papers, and career applications. But, most of all, they will enable you to impress your friends, relatives, and prospective employers with your WORD PROWESS!

Venal minor Vestige residual trace

Vicarious acting through another person area, proximity, or region Vicinity of the bodily organs

Visceral -

Viscous sticky like a fox Vulpine -

#### **Frequently Misspelled Words**

Sometimes, it's just as important to spell a word correctly as to know what it means. In addition to the words above, below are some of the most frequently misspelled words. With your help, you can take them off the list! To help you, here's a refreshment on the basic rules of spelling. It's by no means comprehensive, but these hints can be handy in improving your accuracy!

ei vs ie:

Remember:"I before e except after c."

prefixes

Don't change the spelling of the root word when you add a prefix.

suffixes:

If the word ends in a silent e, and the suffix begins with a vowel, nix the e (unless the

final e is after a soft g or c sound, keep the e.)

If the suffix begins with a consonant, keep the e, unless it comes after a vowel as in "argue."

If the word ends in a consonant, double it before the suffix if the suffix starts with a vowel,

unless the final consonant of the word comes after two vowels, or ends a syllable that is not stressed.

plurals:

Add s to basic singular nouns.

Add es to nouns that end with a s, z, x, ch, or sh.

If a word ends in a consonant before a y, change the y to ies.

If a word ends in a vowel before a y, keep the y and add an s.

Add es to a word that ends in a consonant before an o.

Add s to a word that ends in a vowel before an o.

Change most nouns ending with fe to end in ves.

Several nouns don't change at all in the plural.

Some nouns just change internal spelling to designate a plural.

Form the plural in the main word of compound nouns.

Use an apostrophe before an s to make a number or symbol plural.

a cappella	aardvark	absence	abscess	abhorrent
abyss	abreast	accept	accidentally	accommodate
