# Solar System Trading Cards

Directions:

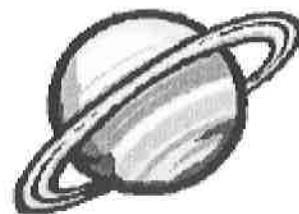

- 1) You will select a total of six objects from the solar system to investigate. One must be the sun and you must select one inner planet, one outer planet, and one specific comet, asteroid, or meteoroid.
- 2) Gather all the information for your cards. A table is a good way to organize this information.
- 3) Create your trading cards by including a title and picture of the object and all the information for that object.
- 4) Don't forget to write your name on *each* trading card.

Trading Card List:

1. Sun
2. Inner Planet: Mercury, Venus, Earth, or Mars (circle one)
3. Outer Planet: Jupiter, Saturn, Uranus, Neptune, or Pluto (circle one)
4. Specific Comet, Asteroid, or Meteoroid (circle one)
5. \*Your Choice
6. \*Your Choice

Example Table for Each Trading Card:

Name of Object	
Relative Location	
Size of Object *include units	
Density of Object *include units	
# of Satellites	
Color	
Other Important Facts (2)	
Drawing or Picture of Object
