

Overview of the SBC Team:

- Consults with school building teams to assist students, teachers, and classrooms regarding educational, communication and behavioral needs
- Designs, outlines, and models specific strategies and interventions for staff and students to be successful
- Creates a second level of support using the expertise of the NLSD122 staff that understand the expectations within our district
- Provides professional development for staff on a variety of topics

What is the Process?

- Teachers, building administrators, related service personnel and itinerants can make a request
- Notify the case manager of your concerns
- Building level team meetings should be held to start a problem solving process to receive input from all team members
- If building level team interventions and resources are not proven to be effective, then the case manager will complete the appropriate form located on the Staff Portal
- Completed and signed forms should be sent to Mandy Novotny, Assistant Director of Special Education.
- The building team will be contacted by the SBC Team to schedule an observation.
