OCTOBER 17, 2022

Members of the Board of Education New Lenox School District 122 New Lenox, Illinois 60451

#### Dear Members of the Board:

The Illinois State Board of Education requires that every school district issue a complete set of audited financial statements. This report is published to fulfill that requirement for fiscal year end June 30, 2022.

The Annual Comprehensive Financial Report of New Lenox School District 122, for the fiscal year ended June 30, 2022 is submitted herewith. The audit was issued on October 17, 2022.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based on a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Wipfli, LLP, Certified Public Accountants, have issued an unmodified ("Clean") opinion on the New Lenox School District 122 financial statements for the year ended June 30, 2022. The independent auditor's report is located at the front of the financial section of this report.

This report has been divided into three major areas; the Introductory, Financial, and Statistical. The introductory section includes the table of contents, transmittal letter, the District's organization chart and the list of principal officials. The financial section begins with the Independent Auditor's Report and includes management's discussion and analysis (MD&A), the Basic Financial Statements and Notes that provide an overview of the District's financial position and operating results, the Combining and Individual Fund Statements for non-major funds and other schedules that provide detailed information relative to the Basic Financial Statements. MD&A complements this letter of transmittal and should be read in conjunction with it. The last area of this report is the Statistical section. The Statistical Section includes a number of tables of

unaudited data depicting the financial history of the District, demographics and the fiscal capacity of the District. When applicable, some data schedules will provide a ten-year history.

### **Profile of the District**

The mission of New Lenox Schools, in partnership with the community, will be to promote academic excellence which focuses on the growth of the whole child. We will stimulate children to develop pride in themselves, community, and country, which will be reflected in their present and future decisions.

The District is an elementary (PreK-8) school district in New Lenox, Illinois, which operates as a single district, with an enrollment of approximately 5,000 students. The governing body consists of a seven-member Board of Education elected from within the District's boundaries. According to the Illinois School Code, the Board of Education:

- a. has the corporate power to sue and be sued in all courts,
- b. has the power to levy and collect taxes and to issue bonds,
- c. can contract for appointed administrators, teachers, and other personnel, as well as for goods and services.
- d. holds title to all District property, and
- e. appoints the Treasurer who serves as legal custodian of all the District's funds.

The Board of Education appoints a superintendent who, in turn, recommends to the Board of Education the appointment of the remaining administrative team. An organizational chart is provided at the front of this report.

The District is required to adopt an annual budget for all its funds by September 30 of each year. The annual budget serves as a foundation for financial planning and control. The budget is prepared by fund, function (e.g., instruction, support services), location, program, and object (e.g., salaries, employee benefits). Additional information of the District's budgetary accounting can also be found in the notes to required supplementary information and later in this letter. The Board of Education approves the hiring of employees, awarding of bids, and payments to vendors at its regular meetings throughout the year.

Our PreK-8 curriculum offers each student a strong foundation in reading, language arts, mathematics, science and social studies. We also provide music, art and physical education in all grades, with numerous extra-curricular opportunities at all grade levels.

In closing, the Board of Education of New Lenox 122 offers one of the most comprehensive educational programs in the Will County area. Consistently, the Board of Education has allocated timely and accurate resources for the programming needs of the educational community.

## **Accounting Systems and Budgetary Controls**

In developing and evaluating the District's accounting system, consideration is given to the adequacy of internal accounting controls. Such controls are designed to provide reasonable, but not absolute, assurance for the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. We believe that our internal accounting controls adequately safeguard District assets and provide reasonable assurance of the proper recording of financial data.

Budgetary control is maintained at line item levels and built up into location, department, and program totals before being combined to create fund totals. All actual activity compared to budget is reported to the District's Administrative team and to the Board of Education monthly. The reports compare year to date activity versus budget and prior year actual. Full disclosures are made if extraordinary variances appear during the year.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management.

#### **Local Economy**

The District covers an estimated thirty-two square mile area. The District serves most of the Village of New Lenox, portions of the Villages of Mokena, Joliet, Homer Glenn and a portion of unincorporated Will County. The District operates one kindergarten center, eight elementary schools, two junior high schools, and a special education center serving the needs of 5,000+ students in grades PreK-8. Classrooms studies are enhanced by Instructional Media Centers and state-of-the-art technology. The combined assessed valuation of industrial and commercial property averaged approximately 12% percent of the total property valuation within the School District which places the majority of the property tax burden on residential homeowners.

The equalized assessed valuation (EAV) for tax year 2021 increased 4.8% to \$1.6 billion over the 2020 EAV of \$1.5 billion. The increase in the EAV resulted in a slightly lower tax rate, due to limitations of the tax cap formula.

Illinois property tax legislation, known as the Property Tax Extension Limitation Law Act, limits the District's ability to generate property tax revenues. In addition to P.L. 89-1, the Illinois General Assembly amended Article 20, which limits the amount of debt service taxes a district can generate through the sale of non-referendum bonds to the district's 1994 aggregate non-referendum debt service amount.

In order for a District to increase its property tax rates, a referendum question would need to be put to the voters.

For information regarding the District's financial position and respective changes in financial position, please read the Management's Discussion and Analysis included later in this report.

### **Long-Term Financial Planning**

The District needs to be fiscally prudent. Key areas of concern are property tax freeze, low inflation, unfunded mandates, growing special education student needs, increasing health care costs, and pension cost shift. The District will continue to explore reducing expenditures where possible. The District's enrollment has been remained relatively stable over the past 5 years. This trend is expected to continue for some time before gradual increases are expected to be seen. As a result of this trend, the District is exploring options to more closely track and monitor future enrollment forecasts, in order to better plan for potential future this growth. Even though there is a large disparity in the age of the District's buildings, all of them have been very well maintained and the district consistently updates and communicates a long-range capital improvement plan with the Board and community.

District finances are monitored through such means as monthly finance reports to the Board of Education, the annual budget process, and long-term financial projections. The President of the Board of Education sets an agenda for the meetings. Agenda items include discussions on all major District revenues, expenses, investment practices and policies, and practices related to the management of District finances. The Board of Education through discussions shapes strategic directions for finance and monitors all policies related to the financial administration of District 122. The Board of Education provides guidance to management on the financing of strategic initiatives and District goals.

The District completed the final phases of a multi-year bond restructuring project during the 2021-2022 fiscal year that resulted in a final overall savings to the taxpayers of over \$13M.

#### **Relevant Financial Policies**

Budget planning begins no later than March by adopting a proposed budget calendar. The proposed budget shall be available for public inspection and comment at least 30 days before the budget hearing. The adopted budget shall be posted on the District's website and filed with the Will County Clerk's office within 30 days of adoption. The Board of Education may amend the budget by following the same procedure as provided for in the original adoption.

The Board of Education shall act on all expenditures, interfund loans and transfers, transfers within funds in excess of 10 percent of the total fund, and all contingency fund expenditures.

The Chief School Business Official acts as the Chief Investment Officer and Treasurer. The Treasurer invests money in accordance with Board policy and state law. See the Notes to the Basic Financial Statements for additional information on cash and investments.

The certificate of property tax levy is to be filed with the Will County Clerk's office by the last Tuesday in December. The District annually publishes a statement of affairs regarding its financial position by December 1.

#### **Awards**

The District has received the Association of School Business Officials International's (IASBOI) Certificate of Excellence in Financial Reporting for fiscal year 2021. This certificate is a prestigious national award recognizing standards for preparation of school district financial reports.

In order to be awarded this Certificate, the District must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to the program standards. Such reports must satisfy generally accepting accounting principles to determine its eligibility for the Certificate.

We believe that our current report conforms to the Certificate requirements and we will be submitting it to ASBOI to determine its eligibility for the Certificate.

## **Acknowledgements and Closing Statements**

The purpose of the Comprehensive Annual Financial Report is to provide the Board of Education, District Administration, and staff and community members, and other interested parties a meaningful report of the District's financial condition as of June 30, 2022.

The preparation of this report on a timely basis could not have been accomplished without the dedicated and able services of all the members of the Business Department, who assisted in the closing of the District's financial records for the preparation of the report, along with the Administration and Support Staff.

We would like to express a special thanks to the members of the Board of Education for the support and interest in the financial affairs of the District for the 2022 fiscal year.

Respectfully submitted,

Loui Motoch

Dr. Lori Motsch Superintendent Mr. Robert Groos Business Manager/CSBO

## **Independent Auditor's Report**

To the Board of Education New Lenox School District No. 122 New Lenox, Illinois

#### **Opinion**

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the New Lenox School District No. 122 (the "District"), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of and for the year ended June 30, 2022, and the respective changes in financial position and, where applicable cash flows thereof for the year ended in accordance with accounting principles generally accepted in the United States.

#### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements are free from material misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatements of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing and opinion on the effectiveness of the District's internal controls. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continues as a going concern for a reasonable period of time.

## **Required Supplementary Information**

Accounting principles generally accepted in the United States require that the management discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such informationis the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor find financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connections with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe in our report.

Aurora, Illinois October 17, 2022

Wippei LLP

3

As management of the New Lenox School District No. 122 (the District), we offer readers of the District's Annual Financial Report this narrative and analysis of the financial activities of the District for the fiscal year ended June 30, 2022. Certain comparative information between the current year and the prior is required to be presented in the Management's Discussion and Analysis (the "MD&A").

#### **Financial Highlights**

- The District had a total net deficit of \$51 million at the close of the most recent fiscal year. This total net deficit includes all long-term debt due to be paid over the next several years.
- The District's net surplus of \$8.0 million on June 30, 2022 was \$3.6 million more than it was the year before.
- The District had total revenues of \$91.8 million and total expenses of \$83.8 million. These amounts both include State of Illinois on behalf contributions of \$14.7 million.
- The Educational Account had revenues of \$68.9 million (including about \$14.7 million of State Teacher Retirement System on behalf revenues) and expenditures of \$64.5 million (including about \$14.7 million of State Teacher Retirement System on behalf expenditures). The Educational Account fund balance at the end of the fiscal year increased \$2.4 million from \$20.0 million to \$22.4 million.
- The Operations and Maintenance Account had \$5.2 million in revenues and \$4.4 million in expenditures. The Operations and Maintenance Fund had a fund balance at year-end of \$4.0 million.
- The District's governmental funds reported combined fund balances of \$42.1 million, an increase of \$1.9 million vs prior year. Approximately 67% of this amount (\$28.3 million) is available for spending at the government's discretion (unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$28.3 million, or approximately 41% of total General Fund expenditures.
- The District's long-term liabilities decreased by \$7.8 million to \$171 million. This is due to the District restructuring and refunding debt.

#### **Overview of the Financial Statements**

This discussion and analysis provided here is intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

This report also contains combining and individual fund financial statements and schedules and other supplementary information intended to furnish additional detail to support the basic financial statements themselves.

#### Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information about all of the District's assets, liabilities and deferred inflows/outflows of resources as reported using the modified accrual basis of accounting, with the difference reported as net position. Over time, changes in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the net position of the District changed during the current fiscal year. Changes in net position are recorded in the statement of activities using the modified accrual basis of accounting.

The government-wide financial statements present the functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The District has no business-type activities; that is, functions that are intended to recover all or a significant portion of their costs through user fees and charges. The District's governmental activities include instructional services (regular education, special education and other), supporting services, transportation services, and administration.

The government-wide financial statements can be found on pages 15-16 of this report.

#### Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds (the District maintains no proprietary funds).

#### Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a school district's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the school district's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains six individual governmental funds. The General, Debt Services and Capital Projects Funds are considered to be major funds. They are presented separately in the fund financial statements with the remaining nonmajor governmental funds labeled as "Other Governmental Funds." Fund information for the nonmajor funds is presented in the combining and individual fund financial statements and schedules section of this report.

The District adopts an annual budget for each of the funds listed above. A budgetary comparison statement/schedule has been provided for each fund in the combining and individual fund financial statements and schedules section of this report to demonstrate compliance with the budget.

The basic governmental fund financial statements can be found on pages 15-21 of this report.

Notes to the financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found on pages 22-52 of this report.

#### **Government-wide Overall Financial Analysis**

**Net Position:** As noted earlier, net position over time may serve as a useful indicator of a government's financial position. The District's combined net deficit was \$8.0 million lower on June 30, 2022 than it was the year before (See Table 1).

Table 1		
Condensed Statement of Net Position (in millions of dollars)	<u>2022</u>	<u>2021</u>
Current and other assets	76.5	73.9
Capital assets	<u>74.0</u>	<u>73.6</u>
Total assets	<u>150.5</u>	<u>147.5</u>
Deferred outflows of resources	<u>23.8</u>	<u>21.3</u>
Long-term debt outstanding	170.7	178.5
Current liabilities	4.3	4.7
Total liabilities	<u>175.0</u>	<u>183.2</u>
Deferred inflows of resources	50.4	44.6
Net position (deficit):		
Invested in capital assets, net of debt	(44.5)	(53.0)
Restricted	12.7	13.8
Unrestricted	(19.2)	(19.8)
Total net position (deficit)	<u>(51.0)</u>	<u>(59.0)</u>

A portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings, and equipment), less any related outstanding debt that was used to acquire those assets. The District uses these capital assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

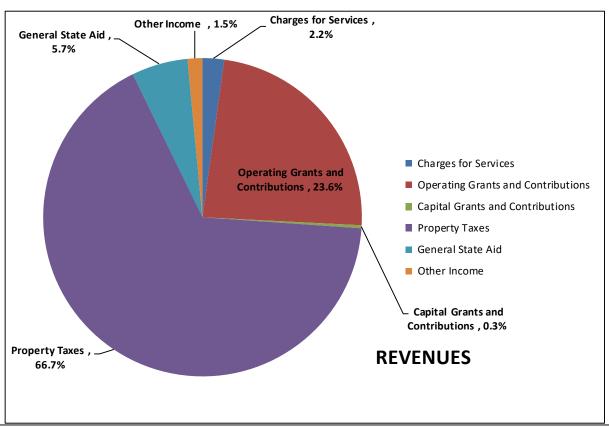

An additional portion of the District's net position represents resources that are subject to external restrictions on how they may be used. At the end of the current fiscal year, the District is able to report positive balances in restricted net position. The District has a deficit relating to its investment in capital assets and unrestricted net deficit. The same situation held true for the prior fiscal year.

Changes in net position: The District's net position increased by \$8.0 million in the current year. (See Table 2)

Table 2				
Changes in Net Position				
(in millions of dollars)		D		D
	2022	Percentage	2021	Percentage
<b>D</b>	<u>2022</u>	<u>of Total</u>	<u>2021</u>	<u>of Total</u>
Revenues:				
Program revenues:	2.0	2.200/	4 =	4.000/
Charges for services	2.0	2.20%	1.5	1.80%
Operating grants & contributions	21.6	23.60%	29.5	20.90%
Capital grants and contributions	0.3	0.30%	0.3	0.30%
General revenues:				
Property taxes	61.1	66.70%	59.4	69.90%
Evidence based funding	5.2	5.70%	5.1	6.00%
Other	<u>1.6</u>	<u>1.50%</u>	<u>0.9</u>	<u>1.10%</u>
Total revenues	<u>91.8</u>	<u>100%</u>	<u>96.7</u>	<u>100%</u>
Expenses:				
Instruction	46.1	54.90%	53.6	52.10%
Pupil support	5.3	6.40%	5.3	6.50%
Other support	18.3	21.80%	16.9	21.00%
Transportation	3.9	4.70%	3.4	4.20%
Administration	1.5	1.80%	3.2	4.00%
Interest	<u>8.7</u>	10.40%	9.9	12.20%
Total expenses	83.8	100%	92.3	100%
Change in net position	8.0		4.4	
Net deficit at beginning of year	(59.0)		(63.4)	
Net deficit at end of year	<u>(51.0)</u>		<u>(59.0)</u>	

#### **Governmental Activities**

Revenues for the District's governmental activities were \$91.8 million and expenses were \$83.8 million. Revenues exceeded expenditures by \$8.0 million during the year.

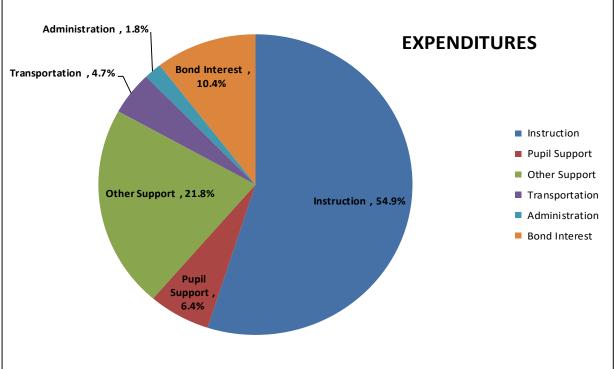

Table 3 presents the cost of six major District activities: instruction, pupil support, other support, transportation, administration and interest. The table shows each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the District's taxpayers by each of their functions.

Table 3 Net Cost of Governmental Activities (in millions of dollars)	<u>Total Cost</u> <u>of Services</u>	Net Cost of Services
Instruction	46.0	24.3
Pupil support	5.3	5.3
Other support	18.3	18.0
Transportation	3.9	2.0
Administration	1.5	1.5
Interest	<u>8.8</u>	<u>8.8</u>
Total	<u>83.8</u>	<u>59.9</u>

- The cost of all governmental activities this year was \$83.8 million. This includes on behalf expenses of \$14.7 million.
- Some of the cost was financed by the users of the District's programs (\$2.0 million).
- The federal and state governments subsidized certain programs with grants and contributions (\$21.9 million). The \$21.9 million amount includes on behalf revenue of \$14.7 million.
- Most of the District's net costs (\$60 million) were financed by local fees and property taxes.

#### **Financial Analysis of the District's Funds**

The financial performance of the District as a whole is reflected in its governmental funds as well. As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balances may serve as a useful measure of a school district's resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the District itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the District's Board.

As the District completed the year, its governmental funds reported a *combined* fund balance of \$42.1 million. However, it should be emphasized that \$13.8 million of this fund balance is earmarked: \$5.4 million is restricted for debt service (the bond payments), \$0.8 million is restricted for municipal retirement / social security, \$6.1 million is restricted for transportation purposes, \$0.1 is restricted for capital projects and fire prevention and safety purposes.

The unassigned fund balance for the District at the end of the fiscal year was comprised of \$28.3 million in the General Fund, which is the chief operating fund of. the District. As a measure of the General Fund's liquidity, it may be useful to compare unassigned fund balance to total General Fund expenditures. Unassigned fund balance represents approximately 41% of total General Fund expenditures.

The total fund balance of the General Fund increased by \$3,168,248.

The fund balance of the Debt Services Fund (a major fund) decreased by \$662,145.

The fund balance of the Transportation Fund (a major fund) decreased by \$336,798.

## **General Fund Budgetary Highlights**

Over the course of the year, the District did not revise the annual operating budget.

The District's final budget for the General Fund (Educational and Operations and Maintenance, Working Cash and Tort Immunity Accounts) anticipated that expenditures and other financing uses would be more than revenues and other financing sources by \$0.4 million. The actual results for the year showed revenues and other financing sources were more than expenditures and other financing uses by \$3.2 million.

#### **Capital Asset and Debt Administration**

#### Capital assets

By the end of fiscal year 2022, the District had \$74.0 million in a broad range of capital assets, including land, school buildings, improvements, and equipment (See Table 4). This amount represents an increase of \$0.4 million from last year. (More detailed information about capital assets can be found in Note III to the financial statements.)

Table 4 Capital Assets (net of depreciation) (in millions of dollars)	Governmental Activities <u>2022</u>	Governmental Activities <u>2021</u>
Land	\$ 10.8	\$ 10.8
Construction in progress	0.5	0.2
Depreciable improvements, property and		
equipment, net	62.7	62.6
Total	<u>\$ 74.0</u>	<u>\$ 73.6</u>

The three schools (Spencer Trail, Spencer Pointe, and Spencer Crossing) which opened in the 2006-07 school year will provide enough enrollment capacity for the next several years.

#### Long-term debt

At year-end the District had \$130.9 million in general obligation bonds and other long-term debt outstanding as shown in Table 5. (More detailed information about the District's long-term liabilities is presented in Note 4 to the financial statements.)

Table 5		
Long Term Debt	<u>2022</u>	<u>2021</u>
General obligation bonds	104.7	114.1
Capital appreciation bonds	26.2	27.5
Installment contract	0.0	0.0
Total	<u>130.9</u>	<u>141.6</u>

#### Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of the following circumstances that may significantly affect its financial health in the future:

- New property construction which helps support property tax revenue has been consistently strong the past few years. This trend is expected to continue into the future.
- The Village of New Lenox continues to work with developers to bring more residential, retail and commercial properties into the community.
- Please note the TRS On Behalf Contributions amount of \$14.9M reported throughout the report. This value represents what the State of Illinois paid to the TRS pension system for the year for the District's TRS eligible employees. The District never actually receives or spends any of these funds. It is important to note that these amounts are included in many of the total revenue and expenditure figures presented throughout the report.
- Illinois approved a new Evidence Based Model method of funding to replace the previous General State Aid formula. NLSD122 received \$5.2M of Evidence Based Funding for FY22. This amount is about the same as the old General State Aid funding.
- NLSD122 provides exceptional programs and services at an efficient cost structure. Strategic cost reductions have been consistently implemented over the years to help create excellent fund balance reserves while maintaining the integrity of the high-quality programs. The District has kept operating expenditures less than operating revenues for several years to help fund annual capital infrastructure improvements without the need to issue any new additional debt. The District looks to consistently pay down the existing building referendum debt which was issued many years ago to build nearly half the District's buildings over the past 20 years. The District will continue to strategically plan for the future to ensure financial sustainability, excellent programs, efficient operations and safe, clean, modern facilities while balancing the interests of all constituents. The NLSD122 Strategic Financial Plan which includes financial, debt, technology and capital infrastructure planning is publicly discussed and updated twice per year.

The District is fortunate to have strong community support as well as having valuable partnerships with the Village of New Lenox, The New Lenox Park District, Lincoln-Way High School District 210 and other neighboring school districts. Collaboration with these other organizations helps to bring better and more efficient services to the community.

#### **Requests for Information**

This financial report is designed to provide the District's citizens, taxpayers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report, or need additional financial information, contact:

Chief School Business Official New Lenox School District 122 102 South Cedar Road New Lenox, Illinois, 60451

# Reconciliation of the Balance Sheet of Governmental Funds To Statement of Net Position June 30, 2022

## Fund balances - total governmental funds

\$ 42,084,569

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources, and therefore, are no reported in funds. The cost of the assets is \$143,877,632 and the accumulated depreciation is \$69,839,863.

74,037,769

Long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore, are not reported in the funds. Long-term liabilities and related accounts at year-end consist of:

Bonds payable	(130,856,034)
Unamortized issuance premiums	(8,861,307)
Deferred amount on refunding	17,204,078
Net OPEB liabilities	(30,364,514)
Net pension liabilities	(572,014)
Accrued interest payable on long-term debt	(907,309)

Total (154,357,100)

Differences between expected and actual experiences, assumptions changes and net differences between projected and actual earnings and contributions subsequent to the measurement date for the postretirement benefits (pension and OPEB) are recognized as deferred outflows of resources and deferred inflows of resources on the statement of net position.

Deferred outflows - pension related	931,849
Deferred outflows - OPEB related	5,657,145
Deferred inflows - pension related	(4,330,160)
Deferred inflows - OPEB related	(15,010,576)

Total (12,751,742)

## Net deficit of governmental activities

Net change in fund balance	3,168,248	(662,145)	(336,798)	(303,114)	1,866,191
Fund balances at beginning of year	25,433,988	6,106,946	6,393,325	2,284,119	40,218,378
Fund balances at end of year	\$ 28,602,236	\$ 5,444,801	\$ 6,056,527	\$ 1,981,005 \$	42,084,569

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Year Ended June 30, 2022

#### Net change in fund balances - total governmental funds

\$ 1,866,191

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities - modified cash basis, the cost of these assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capitalized expenditures (\$3,532,334) exceeded depreciation (\$3,096,418) in the current period.

435,916

The governmental funds record bond and loan proceeds as other financing sources, while repayment of bond and loan principal is reported as an expenditure. In the statement of activities, debt issuance and repayments of bond principal are not reported as they are an increase, or a reduction of long-term liabilities. The net effect of these differences in the treatment of general obligation bonds and related items is as follows:

Repayment of bond principal	7,430,000
Issuance of refunding bonds	(77,285,000)
Payment to escrow agent	87,588,930
Premium on refunding bonds	(8,438,231)
Change in net pension liability - TRS	169,091
Change in net pension liability - IMRF	2,613,604
Change in net OPEB obligation - HIPRE	148,985
Change in net OPEB obligation - THIS	<u>2,554,712</u>

Total 14,782,091

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Accrued interest on long-term debt	287,632
Amortization of deferred amounts on refunding	(3,023,582)
Accretion on bonds	(2,410,866)
Changes in pension deferred outflows and inflows of resources	(1,168,667)
Changes in OPEB deferred outflows and inflows of resources	(2,742,973)

(9,058,456)

### Change in net position (deficit) of governmental activities

8,025,742

## Notes to Financial Statements

## 1. Summary of Significant Accounting Policies

New Lenox School District No. 122 (the "District") operates as a public school system governed by a seven member board. The District is organized under the School Code of the State of Illinois, as amended. The accounting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. A summary of the significant accounting policies, consistently applied in the accompanying financial statements is described below.

## A. Reporting Entity

The District is governed by the Board of Education and provides primary education, transportation, cafeteria, building maintenance and general administrative services.

These financial statements include the District and its component units, entities for which the District is considered financially accountable. At June 30, 2022, no entities were considered component units of the District. At June 30, 2022, the District was not considered a component unit of another entity.

#### **B.** Basis of Presentation

#### 1. Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity has been removed from these statements. The District's operating activities are all considered "governmental activities", that is, activities normally supported by taxes and intergovernmental revenues. The District has no operating activities that would be considered "business activities"

The statement of activities demonstrates the degree to which the direct cash disbursements of a given function are offset by program receipts. Direct cash disbursement are those that are clearly identifiable with a specific function. Program receipts include (1) amounts paid by the recipient of goods or services offered by the program and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program receipts are reported instead as general receipts.

#### 2. Governmental Funds Financial Statements

The fund financial statements provide information about the District's funds, including its fiduciary fund. Separate statements for each fund category - governmental and fiduciary - are presented. The emphasis of fund financial statements is on major governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor funds.

## **Notes to Financial Statements**

#### **B. Basis of Presentation** (Continued)

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It is comprised of four subfunds: the Educational Fund, the Operations and Maintenance Fund, the Tort Fund, and the Working Cash Fund. The General Fund accounts for all financial resources of the District, except those required to be accounted for in another fund.

The Debt Service Fund accounts for the accumulation of resources for and the payment of long-term debt principal, interest and related costs.

The Transportation Fund accounts for financial resources held by the District to be used for the transportation of students for school purposes. Revenues received and disbursements from this fund are legally restricted for this specific purpose.

The District has the following nonmajor governmental funds:

#### Special revenue fund type:

This fund type is used to account for the specific revenue sources that are restricted by law or administrative action to expenditure for specific purposes other than debt service or capital projects. The District's nonmajor special revenue funds is the Municipal Retirement/Social Security Fund.

#### Capital project fund type:

This fund type accounts for the receipt and disbursement of monies used for the acquisition, construction or improvement of the District's capital facilities. The District's nonmajor capital project funds are the Capital Projects Fund and the Fire Prevention and Safety Fund.

#### C. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources or economic resources*. The basis of accounting indicates the timing of recognition in the financial statements of various kinds of transaction or events.

#### Basis of Accounting

In the government-wide statement of net position and statement of activities, governmental activities are presented using the economic resources of management focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

#### **Notes to Financial Statements**

#### C. Measurement Focus and Basis of Accounting (Continued)

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they have been earned and they both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers all revenues available if they are collected within 60 days after year-end. Revenues collected after 60 days are recorded as unavailable revenue. Expenditures are recorded when the related fund liability is incurred. However, unmatured principal and interest on long-term debt is recognized when due; and certain claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal year are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year. Entitlements are recorded as revenues when all eligibility requirements are met, including any time the requirement, and the amount is received during the period or within the availability period for this revenue resource (within 60 days of year end). Expenditure -driven grants are recognized as revenue when the qualifying expenditure has been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the District.

# D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

#### 1. Cash and Investments

The District's investments are carried at cost. The Illinois statutes authorize the District to invest in U.S. government, state of Illinois and municipal securities; certificates of deposit or time savings deposits insured by the FDIC; mortgage notes, bonds or debentures issued by the Federal Housing Administration; bonds and other obligations of the Federal Housing Finance Administration; certain short-term obligations of U.S. corporations; and external investment pools.

Illinois School District Liquid Asset Fund Plus (ISDALF+) is an investment trust formed pursuant to the Illinois Municipal Code and managed by a board of trustees elected from participating members. ISDLAF+ is not registered with the Securities and Exchange Commission as an investment company.

Cash and investment of the District are pooled into a common pooled account in order to maximize investment opportunities. Each fund whose monies are deposited into the pooled account has an equity therein, and interest earned on the investment of these monies is allocated based upon relative equity at month end. An individual fund's equity in the pooled account is available upon demand and is considered to be a cash equivalent when preparing these financial statements. Each fund's portion of the pool is displayed on its respective balance sheet as "equity if pooled cash and investments." In addition, non-pooled cash and investments are separately held and reflected in the respective funds as "cash" and "investments."

## **Notes to Financial Statements**

#### 2. Capital Assets

The District's capital assets are tangible and intangible assets, which include property, plant, equipment, and infrastructure assets (land, building, and equipment), are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year.

As the District constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at their estimated acquisition value at the date of the donation. Acquisition value is the price that would be paid to acquire an asset worth equivalent service potential on the date of donation. Intangible assets follow the same capitalization policies as tangible capital assets and are reported with tangible assets in the appropriate capital asset class.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follow:

Assets	Years
Land improvements	20 years
Buildings	40-50 years
Equipment	3-10 years

In the fund financial statements, capital assets acquired for use in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

#### 3. Deferred Outflows/Inflows of Resources

In addition to assets, the financial statements will sometimes report a separate section for deferred outflows of resources. The separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow if resources (expense/expenditure) until then. The District has two types of items that qualifies for reporting in this category. Accordingly, the item, deferred charge of refunding and deferred amounts related to pension and OPEB. A deferred charge on a refunding results from the difference in the carrying value of refunded debt and its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred amount related to pension and OPEB relate differences between the estimated and actual investment earnings, changes in actuarial assumptions, and other pension and OPEB related charges.

## Notes to Financial Statements

#### 3. Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenues) until that time. The District has two items that qualify for reporting in this category. Unavailable revenue is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and grants. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. In the government-wide financial statements the District reports deferred amounts related to pensions and OPEB.

#### 4. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts, as well as gains (losses) on refunding, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discounts. Gains (losses) on refunding are reported as deferred inflows (outflows) of resources. Bond issuance costs, whether or not withheld or not withheld from the actual debt proceeds received, are reported as expenses.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### 5. Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amount to report as restricted net position and unrestricted net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

#### 6. Fund Balance Flow Assumptions

Sometimes the District fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

#### **Notes to Financial Statements**

#### 7. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board of Education is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board of Education may, by resolution, authorize an individual to assign fund balance. The Board of Education has not adopted such a resolution. The Board of Education may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

#### E. Revenue

#### 1. Program Revenues

Amounts reported as program revenues include 1) charges to individuals or entities that purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

#### 2. Property Tax Revenue

The District's property tax is levied each year on all taxable real property located in the District on or before the last day in December. The lien date for the levy is January 1. The Board of Education approved the 2021 tax levy on November 16, 2021. Property taxes are payable in two installments on June 1 and September 1 of the following year. The District receives significant distributions of tax receipts approximately one month after these due dates.

#### F. Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets, liabilities, and deferred outflows/inflows of resources; the disclosure of contingent assets and liabilities; and the reported revenues and expenses/expenditures. Actual results could differ from those estimates.

## **Notes to Financial Statements**

#### 2. Deposits and Investments

#### **Deposits**

Custodial credit risk for deposits is the risk that, in the event of bank failure, the District's deposits might not be covered. As of June 30, 2022, the bank balance of the District's deposits with financial institutions totaled \$3,760,823, of which all was collateralized and insured.

#### **Investments**

The District had the following investments as of June 30, 2022:

			Average	Weighted
			Credit	Average
			Quality/	Years to
Investment Type		Cost	Ratings (1)	Maturity (2)
Pooled investments (3):				
External investment pool:				
ISDLAF+	\$	17,805,868	AAAm	< 1
Securities		17,163,080	AA+	< 3
Term Series		8,000,000	AA+	< 1
Total	\$_	42,968,948		

- (1) Standard & Poor's ratings are provided where applicable to indicate associated *Credit Risk*. N/A indicates not applicable.
- (2) Interest Rate Risk is estimated using weighted average years to maturity.
- (3) Pooled cash and investments are reported as *equity in pooled cash and investments*. Investments in the pool are not separately reported in the financial statements as ownership of investments cannot be assigned to individual funds including fiduciary funds. Therefore, total investments will not agree to the financial statements.

#### **Investments Policies**

The District's investments are subject to the following risks:

Concentration of credit risk is the risk of loss attributed to the magnitude of the District's in a single issuer.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State statutes limit investment in commercial paper, corporate bonds, and mutual funds to the top two ratings issued by nationally recognized statistical rating organizations. As of June 30, 2022, the District's investments were rated as shown above by the applicable rating agency.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial credit risk is the risk that, min the event of a bank failure, the District's deposits might not be recovered. The District's investment policy protects the District from custodial risk by requiring funds on deposit (checking accounts, certificates of deposit, etc.), in excess of FDIC limits, to be collateralized in accordance with Public Funds Investment Act, 30 ILCS 235. All investments are required to be registered and held by a third-party custodian.

## **Notes to Financial Statements**

## 3. Capital Assets

Governmental activities capital asset balances and activity for the year ended June 30, 2022, were as follows:

	Balance			Balance
Governmental Activities	June 30, 2021	Additions	Deletions	June 30, 2022
Capital assets, not being depreciated:				
Land	\$ 10,807,123 \$	- \$	- ,	\$ 10,807,123
Construction in progress	241,081	554,496	(241,081)	554,496
Total capital assets, not being depreciated	11,048,204	554,496	(241,081)	11,361,619
Capital assets, being depreciated:				
Land improvements	4,310,201	-	-	4,310,201
Buildings and improvements	113,906,317	1,948,936	-	115,855,253
Equipment	11,105,594	1,269,983	(25,018)	12,350,559
Total capital assets, being depreciated	129,322,112	3,218,919	(25,018)	132,516,013
Accumulated depreciation:				
Land improvements	(4,090,631)	(47,139)	-	(4,137,770)
Buildings and improvements	(52,860,278)	(2,659,943)	-	(55,520,221)
Equipment	(9,817,554)	(389,336)	25,018	(10,181,872)
Total accumulated depreciation	(66,768,463)	(3,096,418)	25,018	(69,839,863)
Total capital assets, being depreciated, net	62,553,649	122,501	-	62,676,150
Governmental activities capital assets, net	\$ 73,601,853 \$	676,997 \$	(241,081)	\$ 74,037,769

Depreciation expense was charged to functions of the District as follows:

Instructional	\$ 58,510
Pupil support	274,440
Other support	2,701,948
Administration	61,520
Total depreciation expense	\$3,096,418

## **Notes to Financial Statements**

#### 4. Interfund Transfers

Interfund transfers in the fund financial statements on June 30, 2022, are as follows:

Transfer From	Transfer To	Amount
General Fund - Educational Account	Capital Projects Fund	\$ 2,025,000
Total		\$ <u>2,025,000</u>

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statue or budget requires to expend them or to transfer investment earnings from one fund to another. Transfers are also used to move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorization.

#### 4. Long-Term Debt

Changes in General Long-term Liabilities. The following is the long-term liability activity for the District for the year ended June 30, 2022:

	Balance		Adjustments/		Amounts due Within One
	June 30, 2021	Additions	Reductions	June 30, 2022	Year
Bonds payable Deferred amount for issuance	\$ 141,565,168 \$	79,695,866	\$ 90,405,000	\$ 130,856,034 \$	5 1,720,000
premium	465,384	8,438,231	42,308	8,861,307	-
Net Pension Liability (Asset) -					
Illinois Municipal Retirement	628,594	-	2,613,604	(1,985,010)	-
Net Pension Liability - TRS	2,726,115	-	169,091	2,557,024	-
Net OPEB Liability - THIS	27,498,633	-	2,554,712	24,943,921	-
Net OPEB Liability - Health Insurance Plan for Retired					
Employees (HIPRE)	<u>5,569,578</u>		148,985	<u>5,420,593</u>	<u>-</u>
Total	\$ <u>178,453,472</u> \$	88,134,097	\$ 95,933,700	\$ 170,653,869	1,720,000

At June 30, 2022, \$5,444,801 of restricted balance was available in the Debt Services Fund to service the above listed bonds payable. The installment contracts payable were liquidated by the Debt Services Fund with transfers in from the Educational Account, a subfund of the General Fund.

## Notes to Financial Statements

## 4. Long-Term Debt (Continued)

Total general obligation bonds

## **General Obligation Bonds**

-	
Series 2013A dated April 30, 2013 were issued by the District in the amount of \$5,960,000. Principal payments are due through October 1, 2032; interest payments at rate of 3.52% are due on April 1 and October 1.	3,435,000
Series 2013B dated April 30, 2013 were issued by the District in the amount of \$64,815,000. Principal payments are due through October 1, 2032; interest payments at rates from 0.90% and 4.80% are due on April 1 and October 1.	750,000
Series 2018 dated July 10, 2018 were issued by the District in the amount of \$15,250,000. Principal payments are due through October 1, 2026; interest payments at rates from 2.350% and 3.632% are due on April 1 and October 1.	8,790,000
Series 2019A dated September 10, 2019 were issued by the District in the amount of 9,670,000. Principal payments are due beginning October 1, 2022 through October 1, 2027; interest payments at rates from 1.825% and 2.111% are due on April 1 and October 1.	9,670,000
Series 2019B dated September 10, 2019 were issued by the District in the amount of \$4,760,000. Principal payments are due beginning October 1, 2028 through October 1, 2032; interest payments at a rate of 5.00% are due on April 1 and October 1.	4,760,000
Series 2021 dated September 14, 2021 were issued by the District in the amount of \$15,145,000. Principal payments are due beginning October 1, 2029 through October 1, 2031; interest payments at rates from 3.375% and 4.250% are due on April 1 and October 1.	15,145,000
Series 2022A dated April 1, 2022 were issued by the District in the amount of \$23,055,000. Principal payments are due beginning October 1, 2032 through October 1, 2033; interest payments at rates of 4.000% are due on April 1 and October 1.	23,055,000
Series 2022B dated March 16, 2022 were issued by the District in the amount of \$39,085,000. Principal payments are due beginning October 1, 2023 through October 1, 2032; interest payments at rates at 2.770% are due on April 1 and October 1.	39,085,000

104,690,000

			_	
Total	\$ 30,965,000 \$	(4,798,966) \$	26,166,034	

## Notes to Financial Statements

#### **4. Long-Term Debt** (Continued)

#### **Current and Advance Refunding of Debt**

The District issued \$15,145,000 of General Obligation Refunding Bonds, Series 2021, with interest rates ranging from 1.080% to 1.230%. The proceeds were used for the current refunding of \$9,850,000 of outstanding Series 2011A Bonds and \$10,000,000 of Series 2011C Bonds. The District also issued \$23,055,000 of General Obligation Refunding School Bonds, Series 2022A, with interest rates at 4.00%. The proceeds were used to advance refund \$25,230,000 of outstanding Series 2013B bonds. The District also issued \$39,085,000 of Taxable General Obligation Refunding Bonds, Series 2022B with interest rates at 2.770%. The proceeds were used to advance refund \$37,895,000 of outstanding 2013B bonds. For all three issues, total net proceeds of \$87,588,930 (after payment of issuance costs of \$784,301 and deposits of \$2,658,021 from the Debt Service Fund of the District) were deposited in an irrevocable trusts with escrow agents to provide for the refunding of the three issues. As a result, the liability for the Series 2011A, Sereies 2022A, and 2022B Bonds have been removed from the statement of net position.

The reacquisition price exceeded the net carrying amount of the old debt by \$4,613,930. This amount is included in the statement of net position as a deferred outflow of resources and amortized over the remaining life of the refunded bonds. The refundings resulted in a decrease in total debt service payments over 11 years of \$9,348,199 and created an economic gain (difference between the present value of debt service payments of the new and old debt) of \$8,963,159.

#### Prior Year Defeasance of Debt

In prior years, the District defeased various bond issues by placing proceeds of the new bonds in irrevocable trust funds to provide for future debt service payments on the old bonds. Accordingly, the trust account assets and liability for the defeased bonds are not included in the District's financial statements. As of June 30, 2022, \$105,098,295 of the defeased bonds remain outstanding.

### **Notes to Financial Statements**

#### **4. Long-Term Debt** (Continued)

#### **Legal Debt Margin**

The District's statutory debt limit is 6.9% of the Equalized Assessed Valuation of all taxable property located within the boundaries of the District. However, pursuant to the Illinois School Code, certain of the District's bonds are subject to a debt limitation of 15% as a result of the District's successful bond referenda in 1996, 2000, and 2004. Such bonds are eligible for the "exploding enrollment exception" due to an unusually high increase in the District's student enrollment. Alternate Revenue Source Bonds do not constitute debt for the statutory debt limitation purposes. Shown below is the calculation of the District's debt limitation and debt margin as of June 30, 2022:

	15% of Assessed Valuation	6.9% of Assessed Valuation		
Assessed valuation - 2021 tax year	\$ <u>1,572,213,849</u>	\$ 1,572,213,849		
Statutory debt limitation Less debt subject to the limitation:	\$ 235,832,077	\$ 108,482,756		
Bonds payable	(26,916,034)	(26,655,000)		
Total	\$ <u>208,916,043</u>	\$ 81,827,756		

#### 5. Other Information

#### A. Risk Management

The District is exposed to various risks of loss related to tort's; thefts of, damage to and destruction of assets; errors and omissions; employee medical coverage; and workers' compensation for which the District carries commercial insurance. The amount of coverage has not decreased nor have the amount of settlements exceeded coverage in the current year or any of the past three years.

#### **B. Employee Retirement Systems**

The retirement plans of the District include the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF). Most funding for TRS is provided through payroll withholdings of certified employees and contributions made by the State of Illinois on-behalf of the District. IMRF is funded through property taxes and a perpetual lien of the District's corporate personal property replacement tax. Each retirement system is discussed below.

## Notes to Financial Statements

#### B. Employee Retirement Systems (Continued)

#### a. Teachers' Retirement System of the State of Illinois (TRS)

#### Plan Description

The District participates in the TRS. TRS is a cost-sharing, multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the City of Chicago.

TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at https://www.trsil.org/financial/acfrs/fy2021; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

#### Benefits Provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest consecutive years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier III hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2024. One program allows retiring Tier 1 members to receive a partial lump-sum in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs will begin in 2019 and will be funded by bonds issued by the state of Illinois.

## Notes to Financial Statements

#### **B. Employee Retirement Systems** (Continued)

#### **Contributions**

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2021, was 9.0% of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

**On-behalf contributions to TRS**. The State of Illinois makes employer pension contributions on-behalf of the District. For the year ended June 30, 2022, State of Illinois contributions recognized by the District were based on the State's proportionate share of the pension expense associated with the District, and the District recognized revenue and expenses of \$15,371,291 in the governmental activities based on the economic resources measurement focus and revenues and expenditures of \$14,461,381 in the General Fund based on the current financial resources measurement focus.

**2.2 formula contributions.** The District contributes 0.58% of total creditable earnings for the 2.2 formula change. This rate is specified by statute. Contributions for the year ended June 30, 2022 were \$167,089, and are deferred because they were paid after the June 30, 2021 measurement date.

Federal and special trust fund contributions. When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2022, the employer pension contribution was 10.31% of salaries paid from federal and special trust funds. For the year ended June 30, 2022, \$17,111 of salaries were paid from the federal and special trust funds and there \$1,764 was the required employer contributions. These contributions are deferred because they were paid after the June 30, 2021 measurement date.

**Employer retirement cost contributions.** Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The District is required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary.

#### Notes to Financial Statements

#### B. Employee Retirement Systems (Continued)

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2022, the District paid \$2,972 to TRS for contributions due on salary in excess of 6 percent and no payment for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for State pension support provided to the District. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 2,557,024
State's proportionate share of the net pension liability associated with the District	214,305,817
Total	\$ <u>216,862,841</u>

The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021. The employer's proportion of the net pension liability was based on the employer's share of contributions to TRS for the measurement year ended June 30, 2021, relative to the contributions of all participating TRS employers and the state during that period. At June 30, 2021, the employer's proportion was 0.003278%, which was a increase of 0.000504% from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the District recognized pension expense of \$15,371,291 and revenue of \$15,371,291 for support provided by the state. At June 30, 2022, the District had deferred outflows of resources and deferred inflows of resources related to pensions from the following sources, which are not reported due to the regulatory basis of accounting:

		Deferred	Deferred
	0	utflows of	Inflow of
	F	Resources	Resources
Difference between expected and actual experience	\$	14,668	\$ 10,543
Changes in assumptions		1,133	12,636
Net difference between projected and actual earnings in OPEB plan investments		-	171,517
Changes in proportion and differences between District contributions and proportionate share of contributions	_	185,431	 4 <u>97,796</u>
Total deferred amounts to be recognized in pension expense in future periods		201,232	692,492
District's contributions subsequent to the measurement date		191,928	 
Total	\$	393,160	\$ 692,492

#### Notes to Financial Statements

#### **B. Employee Retirement Systems** (Continued)

\$191,928 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30	Net Deferre Outflows (Inflo of Resource	ows)
2023	\$ (282,	,355)
2024	(158,	,132)
2025	(23,	,964)
2026	(34,	,773)
2027		<u>,964</u>
Total	\$ <u>(491</u> ,	<u>,260</u> )

#### **Actuarial Assumptions**

The total pension liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.25%

Salary increases varies by amount of service credit

Investment rate of return 7.00% net of pension plan investment expense, including inflation

In the June 30, 2021 actuarial valuation, mortality rates were based on the PubT-2010 Table with appropriate adjustments for the TRS experience. The rates are based on a fully-generational basis using projection table MP-2020. In the June 30, 2020 actuarial valuation, mortality rates were also based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates were used on a fully-generational basis using projection table MP-2017.

The long-term (20-year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

## **Notes to Financial Statements**

#### B. Employee Retirement Systems (Continued)

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
U.S. equities large cap	16.7 %	6.2 %
U.S. equities small/mid cap	2.2 %	7.4 %
International equities developed	10.6 %	6.9 %
Emerging market equities	4.5 %	9.2 %
U.S. bonds core	3.0 %	1.6 %
Cash equivalents	2.0 %	0.1 %
TIPS	1.0 %	0.8 %
International debt developed	1.0 %	0.4 %
Emerging international debt	4.0 %	4.4 %
Real estate	16.0 %	5.8 %
Private Debt	10.0 %	6.5 %
Hedge Funds	10.0 %	3.9 %
Private Equity	15.0 %	10.4 %
Infrastructure	4.0 %	6.3 %
Total	100.0 %	

#### Discount Rate

At June 30, 2021, the discount rate used to measure the total pension liability was 7.0%, which was the same as the June 30, 2020 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and State contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2021 was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:)

				Current		
	19	% Decrease	Di	scount Rate	1	.% Increase
		(6.00%)		(7.00%)		(8.00%)
District's proportionate share of the net pension liability	\$	3,166,822	\$	2,557,024	\$	2,050,506

## **Notes to Financial Statements**

#### B. Employee Retirement Systems (Continued)

Detailed information about the TRS's fiduciary net position as of June 30, 2021 is available in the separately issued TRS Comprehensive Annual Financial Report.

#### b. Illinois Municipal Retirement Fund (IMRF)

Plan Description and Benefits

**Plan description** – The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The employer's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of an agent multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Annual Comprehensive Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

**Benefits provided** - IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

3% of the original pension amount, or

1/2 of the increase in the Consumer Price Index of the original pension amount.

## Notes to Financial Statements

#### **B. Employee Retirement Systems** (Continued)

**Employees Covered by the Benefit Terms -** At the December 31, 2020 valuation date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	210
Inactive employees entitled to but not yet receiving benefits	276
Active employees	177
Total	663

Contributions - As set by statute, the employer's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer's annual contribution rate for calendar year 2021 was 11.85%. For the fiscal year ended June 30, 2022, the employer contributed \$673,102 to the plan. The employer also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

**Net Pension Liability** - The employer's Net Pension Liability was measured as of December 31, 2021, and the total pension liability used to calculate the Net Pension Liability was determined by an annual actuarial valuation as of that date.

Actuarial assumptions – The following are the methods and assumptions used to determine total pension liability

at December 31, 2021:

Actuarial cost method Entry Age Normal
Asset valuation method Market Value of Assets

Inflation 2.25%

Salary increases 2.85% to 13.75%, including inflation

Investment rate of return 7.25%

Retirement age Experience-based table of rates that are specific to the type of eligibility

condition. Last updated for the 2020 valuation pursuant to an experience

study of the period 2017-2019.

Mortality For non-disabled retirees, the Pub-2010, amount-weighted, below-median

income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, amount-weighted, below-median income, general, disabled retirees, male and female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, amount-weighted, below-median income, general, employee, male and female (both unadjusted) tables, and future mortality

improvements projected using scale MP-2020.

Other information: Notes There were no benefit changes during the year.

#### Notes to Financial Statements

#### B. Employee Retirement Systems (Continued)

The **long-term expected rate of return** on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2021:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Equities	39.0 %	1.90 %
International equities	15.0 %	3.15 %
Fixed income	25.0 %	(0.60)%
Real estate	10.0 %	3.30 %
Alternatives	10.0 %	1.70-5.50 %
Cash	1.0 %	(0.90)%
Total	<u>100.0</u> %	

#### **Single Discount Rate**

A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and

The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 1.84%, and the resulting single discount rate is 7.25%.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate - The following presents the plan's net pension liability, calculated using the single discount rate of 7.25 percent, as well as what the plan's net pension liability would be if it were calculated using a single discount rate that is 1% lower or 1% higher:

				Current	
	1% Decrease		D	iscount Rate	1% Increase
		(6.25%)		(7.25%)	(8.25%)
Net pension liability	\$	1,595,661	\$	(1,985,010) \$	(4,888,263)

## **Notes to Financial Statements**

#### **B. Employee Retirement Systems** (Continued)

Due to the District preparing its financial statements on the basis of the financial reporting provisions of the Illinois State Board of Education, pension liabilities and deferred inflows and outflows referred to throughout the note disclosure are not recognized in the actual financial statements.

#### **Changes in Net Pension Liability**

	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
	(A)	(B)	(A) - (B)
Balances at December 31, 2020	\$ <u>28,698,961</u>	\$ 28,070,367	\$ 628,594
Changes for the year:

Contributions - employer	-	700,471	(700,471)
Contributions - employees	-	291,458	(291,458)
Net investment income	-	4,704,483	(4,704,483)
Benefit payments, including refunds of employee			
contributions	(1,315,380)	(1,315,380)	-
Other (net transfer)		(128,018)	128,018
Net changes	1,639,410	4,253,014	(2,613,604)
Balances at December 31, 2021	\$ <u>30,338,371</u>	\$ 32,323,381	\$ (1,985,010)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - For year ended June 30, 2022, the District recognized pension income of \$630,540. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources which are not reported due to the financial reporting provisions of the Illinois State Board of Education.

	[	Deferred	Deferred
	0	utflows of	Inflow of
	R	esources	Resources
Difference between expected and actual experience	\$	185,623	\$ 1,712
Changes in assumptions		-	30,376
Net difference between projected and actual earnings on pension plan			
investments			 3,605,580
Total deferred amounts to be recognized in pension expense in future periods		185,623	3,637,668
District's contributions subsequent to the measurement date		353,066	\$ <del>_</del>
Total	\$	538,689	\$ 3,637,668

## Notes to Financial Statements

#### B. Employee Retirement Systems (Continued)

\$353,066 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Net Deferred
	Outflows
	(Inflows) of
Year Ending June 30	Resources
2023	\$ (678,770)
2024	(1,349,337)
2025	(886,787)
2026	<u>(537,151)</u>
Total	\$ <u>(3,452,045</u> )

Aggregate Pension Amounts - At June 30, 2022, the District reported the following from all pension plans:

	TR	S	IMRF	Total
Net pension liability/(asset)	\$ 2,55	7,024 \$	(1,985,010)	\$ 572,014
Deferred outflows of resources	39	3,160	538,689	931,849
Deferred inflows of resources	69	2,492	3,637,668	4,330,160
Pension expense (income)	15,37	1,291	(630,540)	14,740,751

#### C. Other Postemployment Benefits

#### a. Teacher Health Insurance Security (THIS)

Plan Description. The District participates in the THIS. The THIS is a cost-sharing, multiple-employer defined benefit post-employment healthcare plan (OPEB) that was established by the Illinois legislature for the benefit of Illinois public school teachers employed outside the City of Chicago. THIS members are retirees of public schools who were certified educators or administrators. Eligibility is currently limited to former full-time employees, and others who were not full-time employees that meet certain requirements, and their dependents. The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.5) (SEGIA) establishes the eligibility and benefit provisions of the plan.

The THIS issues a publicly available financial report that can be obtained at the website of the Illinois Auditor General: <a href="https://www.auditor.illinois.gov/Audit-Report/ABC-List.asp">https://www.auditor.illinois.gov/Audit-Report/ABC-List.asp</a>. The current reports are listed under "Central Management Services"; prior reports are available under "Healthcare and Family Services".

## Notes to Financial Statements

#### C. Other Postemployment Benefits (Continued)

#### Benefits Provided

The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state administered participating provider option plan or choose from several managed care options. Annuitants who were enrolled in Medicare Parts A and B may be eligible to enroll in Medicare Advantage Plans.

Amendments to the plan can be made only by legislative action with the Governor's approval. Effective July 1, 2012, in accordance with Executive Order 12-01, the plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS.

#### **Contributions**

The SEGIA requires that all active contributors to the TRS, who are not employees of a department, make contributions to the plan at a rate of 0.90% of salary and for every employer of a teacher to contribute an amount equal to 0.67% of each teacher's salary. Additionally, the SEGIA requires the State to match the employees' contribution on-behalf of the employer. The Department determines, by rule, the percentage required, which each year shall not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. In addition, under the State Pension Funds Continuing Appropriations Act (40 ILCS 15/1.3), there is appropriated, on a continuing annual basis, from the General Revenue Fund, an account of the General Fund, to the State Comptroller for deposit in the THIS, an amount equal to the amount certified by the Board of Trustees of TRS as the estimated total amount of contributions to be paid under 5 ILCS 376/6.6(a) in that fiscal year.

The SEGIA requires that the Department's Director determine the rates and premiums of annuitants and dependent beneficiaries and establish the cost-sharing parameters, as well as funding. Member premiums are set by this statute, which provides for a subsidy of either 50% or 75%, depending upon member benefit choices. Dependents are eligible for coverage, at a rate of 100% of the cost of coverage.

On-behalf contributions to THIS. The state of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to THIS Fund from active members which were 0.90% of pay during the year ended June 30, 2022. In the government-wide financial statements, the State of Illinois contributions also include a proportional allocation of the State's OPEB expense (based on the portion of the District's share of expense compared to all School Districts in aggregate). For the year ended June 30, 2022, the District recognized revenue and expense of \$(468,044) in the governmental activities based on the economic resources measurement focus and revenues and expenditures in the amount of \$259,276 in the General Fund based on the current financial resources measurement focus for the State of Illinois contributions on behalf of the District.

**Employer contributions to THIS Fund.** The District also makes contributions to THIS Fund. The District THIS Fund contribution was 0.67% during the year ended June 30, 2022. For the year ended June 30, 2022, the District paid \$193,016 to the THIS Fund, which was 100 percent of the required contribution.

## **Notes to Financial Statements**

#### C. Other Postemployment Benefits (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2022, the District's reported a liability for its proportionate share of the net OPEB liability. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the net OPEB liability	\$	24,943,921
State's proportionate share of the net OPEB liability associated with the District	_	33,820,317
Total	\$_	58,764,238

The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2020 and rolled forward to June 30, 2021. The District's proportion of the net OPEB liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2021, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2021, the District's proportion was 0.113097%, which was an increase of 0.010244% from its proportion measured as of June 30, 2020.

	Deferred	Deferred
	Outflows of	Inflow of
	Resources	Resources
Difference between expected and actual experience	\$	- \$ 1,166,846
Changes in assumptions	8,613	1 9,340,374
Net difference between projected and actual earnings on OPEB plan investments		- 85
Changes in proportion and differences between District contributions and proportionate share of contributions	4,970,226	5 1,525,567
Total deferred amounts to be recognized in OPEB expense in future periods	4,978,837	7 12,032,872
District's contributions subsequent to the measurement date	193,016	<u> </u>
Total	\$ <u>5,171,853</u>	\$ 12,032,872

\$193,016 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

## **Notes to Financial Statements**

#### **C. Other Postemployment Benefits** (Continued)

Total	\$ <u>(7,054,035</u> )

#### **Actuarial Assumptions**

The total OPEB liability was determined by an actuarial valuation as of June 30, 2020, using the following assumptions, applied to all periods including in the measurement date, unless otherwise specified:

Inflation	2.50%
Salary increases	Depends on service and ranges from 9.50% at 1 year of service to 4.00% at 20 or more years of service. Salary increases includes a 3.25% wage inflation assumption.
Investment rate of return	2.75%, net of OPEB plan investment expense, including inflation, for all plan years.
Healthcare cost trend rates	Trend for fiscal year 2022 based on expected increases used to develop average
	costs. For fiscal years after 2023, trend starts at 8.00% for non-Medicare costs
	and Medicare costs, and gradually decreases to an ultimate trend of 4.25%.

Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the RP-2014 Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 White Collar table. All tables reflect future mortality improvements using Projection Scale MP-2017.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2014 through June 30, 2017.

## Notes to Financial Statements

#### **C. Other Postemployment Benefits** (Continued)

Projected benefit payments were discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bond with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since the THIS is financed on a pay-as-you-go basis, a discount rate consistent with the 20-year general obligation bond index has been selected. The discount rates are 1.92% as of June 30, 2021, and 2.45% as of June 30, 2020. The decrease in the single discount rate from 2.45% to 1.92% caused the total OPEB liability to decrease by approximately \$5,988 million from 2020 to 2021.

Sensitivity of Net OPEB Liability to Changes in the Single Discount Rate

The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of 1.92%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (0.92%) or 1-percentage-point higher (2.92%) than the current rate:

		Current	
	1% Decrease	Discount Rate	1% Increase
	0.92%	1.92%	2.92%
District's proportionate share of the net OPEB liability	\$ 29,964,995	\$ 24,943,921	\$ 20,964,037

Sensitivity of Net OPEB Liability to Changes in the Healthcare Cost Trend Rate

The following presents the District's net OPEB liability, calculated using the healthcare cost trend rate, as well as what the District's total OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage higher or lower, than the current healthcare cost trend rates. They key trend rates are 8.00% in 2023 decreasing to an ultimate trend rate of 4.25% in 2308.

		Healthcare	
		Cost Trend	
	1% Decrease	Rate	1% Increase
	(a)	Assumptions	(b)
District's net OPEB liability	\$ 19,968,865	\$ 24,943,921	\$ 31,702,169

- (a) One percentage point decrease in healthcare trend rates are 7.00% in 2023 decreasing to an ultimate trend rate of 3.25% in 2038.
- (b) One percentage point increase in healthcare trend rates are 9.00% in 2023 decreasing to an ultimate trend rate of 5.81% in 2027, for non-Medicare coverage, and 5.25% in 2038.

## **Notes to Financial Statements**

#### b. Defined Post-Employment Benefit Plan

Plan Description:

The District administers a single-employer defined benefit healthcare plan (the "Health Insurance Plan for Retired Employees - HIPRE"). Eligible administrators and support staff that retire from the District may continue their health care coverage for up to the earlier of five years since the benefit commencement date or age 65. IMRF employees that retire from the District may elect to continue their health coverage by paying the monthly premium. HIPRE also provides Teachers Retirement Insurance Program (TRIP) for certified teachers with 15 full years of service with the District. Benefit provisions are established through contractual agreements and may only be amended through negotiations with the Board. All insurance benefits cease when the retired employee begins receiving Medicare coverage, or attains age 65, whichever comes first.

Eligibility

Employees are eligible upon retirement if enrolled in the active medical plan immediately prior to retiring.

The criteria for TRS retirement is as follows:

Tier 1 - Employees must be age 60 with at least 10 years of service, or age 62 with at least 5 years of service

The criteria for IMRF retirement is as follows:

Age 55 and 8 years of service for those hired before January 1, 2011

Age 62 and 10 years of service for those hired on or after January 1, 2011

Employees Covered by Benefit Terms

As of June 30, 2022, the following employees were covered by the benefit terms:

Active participants	525
Retired participants (including spouses)	29
Total	554

## **Notes to Financial Statements**

#### C. Other Postemployment Benefits (Continued)

#### **Contributions**

Contribution requirements are established through contractual agreements and may only be amended through negotiations with the Board. The retiree is responsible for paying the full monthly premium. However, the District provides a monthly reimbursement toward the premium cost at established rates. Retired certified teachers and administrators are receiving an 85% reimbursement of the single TRIP premium from the District. Retired support staff are receiving a 50% reimbursement of the single premium for health benefits.

#### **Net OPEB Liability**

The District's net OPEB liability was measured as of June 30, 2022. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of July 1, 2021, which was rolled forward to July 1, 2020.

#### Plan Fiduciary Net Position

The District currently pays for postemployment health care benefits on a pay-as-you-go basis. Therefore, no trust has been established for future costs, and no net position is held for postemployment health care obligations.

#### **Actuarial Assumptions**

The following are the methods and assumptions used to determine the total OPEB liability at June 30, 2022:

Actuarial cost method Entry Age Cost

Asset valuation method N/A
Payroll increases 3.00%
Investment rate of return N/A

Participation 100% of active employees are assumed to participate upon retirement.

Mortality Pub-2010 Public Retirement Plans General mortality table projected

generationally with scale MP-2021.

Other information: Notes The medical trend rate table was reset in fiscal 2022. The dental trend rate is

4.00% per year.

#### Discount Rate

The District does not have a dedicated Trust to pay the benefits of the Plan. Per GASB 75, this discount rate is a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another rating scale). The discount rate used is 2.16%.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2022, the District recognized OPEB income of \$6,401. At June 30, 2022, the District reported \$678,308 deferred outflows of resources and \$2,977,704 deferred inflows of resources related to OPEB. The following represents the deferred outflows of resources related to OPEB:

	Deferred Outflows of	Deferred Inflow of
	Resources	Resources
Difference between expected and actual experience	\$ - \$	2,312,177
Changes in assumptions	<u>678,308</u>	665,527
Total	\$ <u>678,308</u> \$	2,977,704

The total deferred outflows related to OPEB will be recognized in future years as follows:

	Net Deferred
	Outflows (Inflows)
Year ended June 30:	of Resources
2023	\$ (460,756)
2024	(460,756)
2025	(460,757)
2026	(431,988)
2027	(60,530)
Thereafter	(424,609)
Total	\$ <u>(2,299,396</u> )

Aggregate OPEB Amounts - At June 30, 2022, the District reported the following from all pension plans:

	THIS	HIPRE	Total
			_
Net OPEB liability/(asset)	\$ 24,943,921 \$	5,420,593	30,364,514
Deferred outflows of resources	4,978,837	678,308	5,657,145

#### **Notes to Schedule**

Valuation date: Notes:

Actuarially determined contribution rates are calculated as of December 31 of each year,

which are 12 months prior to the beginning of the fiscal year in which contributions are  $\dot{}$ 

reported.

#### Methods and assumptions used to determine contribution rates:

Actuarial cost method Aggregate entry age normal Amortization method Level percent of payroll, closed

Remaining amortization period Non-Taxing bodies: 10-year rolling period. Taxing bodies (Regular, SLEP and ECO

groups): 22-year closed. Early Retirement Incentive Plan liabilities: a period up to 10 years selected by the Employer upon adoption of ERI. SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 17 years for most employers (five employers were financed over 18 years; two employers were financed over 20 years; three employers were financed over 26 years; four employers were financed over 28

/ears).

Asset valuation method 5-year smoothed market; 20% corridor

Wage growth 3.25% Inflation 2.50%

Salary increases 3.35% to 14.25%, including inflation

Investment rate of return 7.25%

Retirement age Experience-based table of rates that are specific to the type of eligibility condition. Last

updated for the 2017 valuation pursuant to an experience study of the period 2014 -

2016.

Mortality For non-disabled retirees, an IMRF specific mortality table was used with fully

generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF

experience.

Other Information:

Notes: There were no benefit changes during the year.

#### **Notes to Schedule**

#### Changes of assumptions

For the 2021 measurement year, the assumed investment rate of return was of 7.0 percent, including an inflation rate of 2.25 percent and a real return of 4.75 percent. Salary increases were assumed to vary by service credit. These actuarial assumptions were based on an experience study dated September 30, 2021.

For the 2020-2016 measurement years, the assumed investment rate of return was of 7.0 percent, including an inflation rate of 2.5 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit. The assumptions used for the 2020-2018 and 2017-2016 measurement years were based on an experience study dated September 18, 2018 and August 13, 2015, respectively.

For the 2015 measurement year, the assumed investment rate of return was 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ending June 30, 2014.

<sup>\*</sup> The amounts presented were determined as of the prior fiscal-year end. The District implemented GASB Statement No. 68 in fiscal year 2015. Information prior to fiscal year 2015 is not available.

#### Notes to Required Supplementary Information

#### **Budgetary Data**

Annual budgets for all Governmental Funds are adopted on the modified accrual basis, consistent with generally accepted accounting principles (GAAP) for local governments.

The Board of Education follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The Superintendent submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments.
- 3. Prior to October 1 the budget is legally adopted through passage of a resolution. On or before the last Tuesday in December, a tax levy ordinance is filed with the County Clerk to obtain tax revenues.
- 4. The Superintendent is authorized to transfer up to 10% of the total budget between departments within any fund without Board of Education approval; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education following the public hearing process mandated by law. The budget, which was not amended, was adopted on September 21, 2021.
- 5. Formal budgetary integration is employed as a management control device during the year for all Governmental Funds.
- 6. The Board of Education may amend the budget (in other ways) by the same procedures required of its original adoption.
- 7. The budget lapses at the end of each fiscal year.

#### **STATISTICAL SECTION (UNAUDITED)**

#### Financial Trends (pages 82-89)

These schedules contain trend information to help the reader understand how the District's financial performance and well being have changed over time.

#### **Revenue Capacity (pages 90-95)**

These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.

#### **Debt Capacity (pages 96-100)**

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

#### **Demographic and Economic Information (pages 101-104)**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

#### **Operating Information (pages 105-109)**

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.
